

# DPV Health Digital Community Connectors

Are you passionate about social media platforms and community? Are you well connected with your community? Are you looking for an opportunity to gain work and professional experience? Are you looking for ways to actively connect with your community through the social, electronic and community media platforms? Apply to be part of the DPV Health Digital Community Connectors Program!

DPV Health is offering a free Digital Community Connector Program for active community members with a passion for social media platforms, community media channels. This will build participants skills, increase health knowledge and provide valuable work and professional experience.

The DPV Health Digital Community Connectors Program, is an eight-week' online program starting in November 2021. By participating, you will:

- > Be part of co-designing how DPV Health can use social media, community media channels, to increase the number of people in our diverse communities who receive health messages and information.
- > Learn how to use social media platform professionally, social media etiquette and ways for your community to be involved.
- > Increase your knowledge on topics related to health and available services.
- > Build a network with people who have simpler interests who live or work in the Hume and Whittlesea local government areas.
- > Be a valued partner with DPV Health; sharing your knowledge and experiences so that we can better understand the needs of our communities.

## DPV Health Digital Community Connectors will receive:

- > A certificate upon completion
- > A gift voucher for your attendance at the training sessions
- > Ongoing DPV Health support to share learnings with your community

We invite applications from members from diverse communities including **refugees & asylum seekers, people from LGBTIQ+ communities, Aboriginal and Torres Strait Islanders** and people with **disabilities**. Applicants must be 18 years or above.
