

Our Physiotherapists help to keep you well, strong and active. Pain and injury can have an impact on your wellbeing by making it difficult to carry out your daily activities and stay independent.

Physiotherapists help people affected by injury, illness or disability through movement and exercise as well as provide treatment, education and advice on self-management of their condition.

The physiotherapy team at DPV Health work with you to help you set and achieve your personal goals and to encourage you to actively participate in your treatment.

You may wish to see our Physiotherapist for:

Muscle, joint, bone and nerve problems or injury

Some dizziness disorders

Falls or risk of falls

Women's Health

Balance and mobility issues

Neurological conditions

Pain management

Rehabilitation

Arthritis

Our Physiotherapists help to:

- > Regain the maximum movement possible after injury, illness or disability
- > Teach people self-help skills to prevent injury or re-injury
- > Improve balance and help prevent falls
- > Prescribe walking aids
- > Assist with pain management
- > Prescribe exercises to treat and manage health conditions such as chronic neck and back pain
