

We offer support to children who are experiencing delay in mainly one developmental area.

Our skilled Paediatric Occupational Therapists will work with you and/or your child to increase independence in everyday activities at home, pre-school, school, and in the community.

You may wish to see one of our Paediatric Occupational Therapists for:

Motor skills - coordinating the large muscles needed for jumping and climbing; as well as using the hands to draw, cut with scissors, pick up and manipulate small objects

Visual-perceptual skills – naming and copying shapes, letters, numbers, matching skills and completing puzzles

Self-care activities - getting dressed, using cutlery, toileting

Attention and concentration - attending to tasks and completing activities and routines

Play skills - playing with toys and playing with others

Sensory processing - sensitivities or seeking behaviours in relation to sound, smell, movement or touch

What to expect:

After an initial assessment of your child, we will create a Client Care Plan. This is a written agreement about how we can work together to help your child achieve the agreed goals.

Your child's therapy may consist of one or more of the following options:

- > Group Therapy
- > Individual Sessions
- > Home Programs
- > Monitoring and/or a Review

Who can use this service

This service is for children aged 0 – 8 years with mild to moderate delay in mainly one developmental area.

We accept self-referrals, and referrals from GPs, paediatricians, specialists, maternal and child health nurses, other health professionals, carers and early years educators.

For children who require long-term therapy or have a disability, we can help you to access more appropriate services for their needs, such as our Early Childhood Intervention Service or the NDIS (National Disability Insurance Scheme).

Fees

For more information on fees, see our Client Fees Schedule at dpvhealth.org.au

Access to Interpreter Services

We offer FREE interpreter access to all clients who need it.

If you require an interpreter, please let our staff know at the time of making an appointment.
