

Supporting your Child's Health & Wellbeing

Children's Services

DPV Health offer an extensive range of specialised services for children's health. Providing quality, evidence-based interventions and strategies to improve the health, development, wellbeing and safety of children, using a family-centred approach.

Here are a range of services DPV Health have to support your child's health:

**Early Childhood
Intervention Services
(ECIS)**

**Children's
Physiotherapy**

**Children's
Audiology**

**Children's
Occupational
Therapy**

**Children's
Dietetics**

**Children's Speech
Pathology**

**Children's Asthma
Program**

**Pathway to
Good Health**

These services include improving the capacity of those people closest and most significant to the child – their families, parents and carers.

Our friendly and experienced team are able to support children up to the age of nine. Services can be delivered from our 5 purpose-built, bright and spacious sites (Broadmeadows, Craigieburn, Meadow Heights, Mill Park, Mickleham North), in your home or the child's educational setting.

For more information on these services contact:
