Diabetes Connect Pilot Program

Have you recently been diagnosed with Type 2 Diabetes or are you someone with Type 2 Diabetes who struggles to manage their blood glucose levels?

DPV Health is one of 6 providers across the state of Victoria offering a unique program as part of a 12-month pilot project. Diabetes Connect seeks to improve health and wellbeing outcomes for people with type 2 diabetes, reduce avoidable disease progression and hospitalisation, and improve integration and coordination between primary, community and acute care services.

Diabetes Connect offers a unique experience into community health services by offering:

1. Care Coordinators:

Care Coordinators will act as your primary point of contact, providing holistic care and supporting you to access services and assistance you may need.

2. Continuous Glucose Monitoring Sensor:

The opportunity to be fitted with a continuous glucose monitoring sensor during the 12-month period.

3. Access to other Allied Health & Support Services:

Free access to allied health and social support services provided by DPV Health.

Our Diabetes Connect Program is tailored to you, to best support your health needs and preferences. All referrals to the program must be made through a participating medical clinic or general practitioner.

For more information we encourage all who are interested in the program to call:

1300 234 263 (select option 4) or email: diabetesconnect@dpvhealth.org.au
