

Diabetes Connect program running at DPV Health until June 2025, where Type 2 Diabetes patients will have access to a multidisciplinary Diabetes Service in the community. We work with you, and your family/ carers to guide and support self-management of your diabetes.

What is the service?

- > A community-based integrated care pathway for People with Type 2 Diabetes
- > Aims to improve health and wellbeing outcomes for people with diabetes
- > Reduce avoidable disease progression and hospitalisation
- > The program aims to improve integration and coordination between Primary, Community and Acute Care Services

What sets us apart?

Within the program you will have the opportunity to have:

- > A care coordinator supporting you throughout the program, be your initial point of contact and guide through services and systems
- > Access to Freestyle Libre sensor for at the beginning and end of the program if appropriate
- > Access to free Diabetes Nurse Educators, Allied Health, social support groups, and a range of additional programs and groups on offer at DPV Health

Note: all participants must consent to the completion of three 5-minute surveys throughout the program and sharing of deidentified information for the evaluation of the pilot program.

Who will deliver the service?

- > Diabetes Care Coordinator
- > Diabetes Nurse Educators
- > Dietetics
- > Mental Health team/ Counselling
- > Podiatry
- > Exercise Physiology
- > Physiotherapy
- > Social Support groups and services

Endocrinology is available at DPV Health (this can be accessed under bulk-billing with a separate referral).

Who can use this service?

This service is available to members of the community:

- > Those with Type 2 Diabetes/ pre-diabetes
- > Over the age of 18 years

You are not eligible for this program if you have type 1 diabetes or if you are already a part of the Hospital Admission Risk Program (HARP).
